## WORK HISTORY

**Senior iOS Engineer**
Route |  May 2022 - Dec 2024

Maintained and created new ideas from scratch on Route's iOS app. Handled features, developer tools, UI, architecture, code quality, CI/CD, events, data analysis, testing, stability metrics, backend integration, releases.. Just as you'd expect in a tiny mobile team

**Senior iOS Engineer**
PEBMED | Feb 2020 - May 2022

Maintained and developed in Brazil's most popular physician app. Complete offline support. Handled complex in-app subscriptions, SQLite database transactions, beautiful UI/UX, CI/CD and the most up to date iOS tech at the time

**Senior iOS Engineer**
Altran | Jun 2019 - Jan 2022

Brazil's biggest streaming app GloboPlay. Created efficient yet complex live streaming UI for multi-channel support all while handling accessibility for iOS, iPadOS and tvOS. Millions of users worldwide.
